Skype: Is a platform that let us have a video-call or just a simple call with other person or a group of persons but, as all, it has pros and cons.

On the plus side	On the minus side
You can see the other person, and you know how she or he is	If you don't have anything to tell you pass an awkward time
You can have a better communication, this is because you can express better by talking	You need an internet connection
If you miss the other person you can just call and you see it	Most of video-call and call have a bad quality
You can text to	
You can share your screen, it is useful for works	
It is "free", I mean, you don't pay for the service	
You can do other activities while call	

- 1.- Is about the pros and cons about the email
- 2.- That even his great aunt is using it
- 3.- first of all, a second point, also, in addition, last but not least
- 4.- firstly, secondly, another point, although, a final and very important point
- 5.- saying that the pros are more important than the cons
